The required procedures are always performed according to the indication of the respective doctor. The calculation of the provided care (procedure, material, transport) is based on the point evaluation according to the valid List of medical procedures with point values. The point value is determined in accordance with the current Decree on the determination of point values, the amount of reimbursement for covered services and regulatory limitations for 2024. The point valuation of the performance can be found on the website of the Ministry of Health of the Czech Republic.
